

## Precision Variable Power

The **POWER-3 VS<sup>TM</sup>** includes enhanced 3-Stage Turbine power, Variable-Speed and exclusive features that put you in control of this advanced **TrueHVLV<sup>TM</sup>** system for industries and applications demanding precision HVLV technology for the perfect finish. The **POWER-3 VS<sup>TM</sup>** can be used for the wide range of coatings, solvent or water base, clear or pigmented as well as specialized materials: faux paints, gelcoat, latex (emulsion) and multi-spec.

## Advanced Features

### Variable Speed Pressure Control

Precise control of the turbine pressure output, from 0.1–7.0 PSI, for professional results with all finishes.

### Unparalleled Power & Efficiency

Delivers 7.0 PSI sealed pressure for optimum atomization. Documented 80+% transfer efficiency and 38% savings on coatings when compared with compressed air systems.

### QuadraClean<sup>TM</sup>

Dual automotive filters provide advanced air filtration to keep the system running cooler and prolong motor life.

### 29' (8.84 meter) Apollo-Flex<sup>TM</sup> Hose

Quick lightweight alloy couplers on both ends and our exclusive Ultra-Flex<sup>TM</sup> whip hose at the spray gun end.

### Handi-Hold<sup>TM</sup> Spray Gun Docking Station

Store, hold or transport your spray gun, or other accessories, safely.

### 7700 Atomizer<sup>®</sup> Spray Gun Choices

Apollo offers 7 spray guns that are compatible with the POWER-3 VS<sup>TM</sup>. Choose the gravity or bottom-feed cup option that best fits your needs.

### 3-Year Limited Warranty

The 2+1 warranty includes 2 years parts and labor to protect your investment. Registering your system adds the 1 year of bonus coverage.

### Included Accessories - A \$59 Value

*Deluxe Spray Gun Case, Wrench (Spanner), Gun Lube, Viscosity Cup & Blow Off Tool.*

## Production Systems

### PW3VS-4550 Mobile Fluid Feed Cart System

Designed to be used with the **POWER-3 VS<sup>TM</sup>** and other Apollo turbine systems. Excellent in the shop or on-site. Perfect for larger jobs when a quart (litre) is just not enough or when greater spray gun mobility is needed to get into a tight corner.

This 2.5 gallon (10 litre) pressure pot features a non-stick coating inside and out, plus stainless steel fluid parts throughout. Large wheels provide easier mobility when going up and down stairs or curbs.

**Includes:**

**POWER-3 VS<sup>TM</sup>** turbine system, 7700 Atomizer<sup>®</sup> spray gun, 2.5 gallon (10 litre) deluxe pressure pot, oil-less mini air compressor, 30' (9m) fluid hose and cart.

### PW3VS-4500 Mobile Fluid Feed System

Designed to be used with the **POWER-3 VS<sup>TM</sup>** and other Apollo turbine systems. Excellent in the shop or on site. Perfect for that larger job when a quart (litre) is just not enough or when greater spray gun mobility is needed to get into a tight corner.

**Includes:**

**POWER-3 VS<sup>TM</sup>** turbine system, 7700 Atomizer<sup>®</sup> spray gun, 2 quart (2 litre) non-stick coated pressure pot with stainless steel material tube, oil-less mini air compressor, 30' (9m) fluid hose and 4 wheels for easy mobility.
